

Financial Information for Students

October 2011

St Edmund's
College

This table summarises the charges for the academical year 2011/2012, with effect from 1st July 2011.

Prospective students must understand that **all charges are revised every year**, to take into account of increased costs. In general, increases are based on trends in the HIGHER EDUCATION PURCHASING PRICE INDEX. No guarantee is given to maintain or hold increases at any particular level, although the College will always strive to minimise increases. When charges are revised the increases are not necessarily the same for all categories, so that for example, rents might increase by a different percentage to meal charges.

The College cannot and does not give any undertaking of any kind, which would prevent its Governing Body from introducing new charges not shown here or from increasing charges in the future.

All amounts shown here are in pounds sterling (£). The pound sterling is the only currency accepted by the College. Overseas students need to bear in mind that exchange rates can fluctuate up as well as down. The College cannot and does not alter its fee structure to reflect exchange rates since it has no control over these external events. Therefore it would be prudent for overseas students to take into account the possibility of an unfavourable movement of exchange rates and to take appropriate precautions.
