

Support the brightest minds today for a brighter tomorrow

With approximately 550 matriculated students and an increasingly solid financial position, we have every reason to look to the future with confidence.

However, the next challenge for St Edmund's is to provide the facilities expected by students in the 21st century. Especially as the original buildings were envisaged for a population of just 100.

On the College's existing site, we are planning to create East Court. Located on the north side of the Norfolk Building, this four-storeyed extension will provide new catering facilities, space for the Von Hügel Institute, purpose-built College offices and accommodation for students. On the west side of the new court, a large single-storey, multi-purpose common room will provide space for seminars, lectures and student Bops.

The existing Norfolk building will be completely refurbished, offering low cost student accommodation and an enlarged CR and SCR. The current student bar will be retained. The result will be a traditional college court and cloister with modern facilities, providing our growing student body with a central hub within Eddies. The maisonettes will be demolished and new family housing will be built overlooking the football pitch.

The College community consists of people across the world whose Cambridge home is St Edmund's. We are in a good position, but now, more than ever, we have to rely on our friends and networks to ensure our future development and continued security and success.

At a time of global uncertainty,
this is a statement of confidence
in our international college.

St Edmund's College
University of Cambridge

Family Houses
Light, modern accommodation
for students with children

New Common Room
Large, single storey space for
conferences, seminars and Bops.

East Court
Student accommodation, cafeteria
and Von Hügel Institute, built to
complement the existing building

Access to new Mount
Pleasant House

bb+c Architects

“ We celebrate every major festival
from around the world to appeal to
the international student population.
As the many positive infrastructural
upgrades planned in the near future
kick in, Eddies will continue to
protect and promote the amazing
student community that has made
my experience here in Cambridge so
fulfilling. ”

Glen Chua, CR Welfare Officer

CR & SCR
Extension and refurbishment,
retaining the existing student bar

Norfolk Building
Extension of dining hall and
refurbishment of affordable
student accommodation
